# SWIFT Maryland

In 2013, The Maryland State Department of Education through the Division of Special Education/Early Intervention Services, and the Division of Curriculum, Assessment, and Accountability were awarded the opportunity to be one of five sites in the nation to partner with the SWIFT Center. The focus of the work is to transform general and special education services through inclusive multi-tiered academic and behavior instruction. The SWIFT initiative uses the principles of implementation science to build an infrastructure to support full implementation, as well as district and state capacity for sustainability and scale-up across the state. The following Local School Systems have partnered in the initial phase of **SWIFT Maryland**:

## Allegany County Public Schools

- West Side Elementary School
- South Penn Elementary School
- Cash Valley Elementary School
- Washington Middle School

## Cecil County Public Schools

- Elkton Middle School
- Gilpin Manor Elementary School
- Cecil Manor Elementary School
- North East Middle School

## Queen Anne's County Public Schools

- Sudlerville Middle School
- Sudlerville Elementary School
- Matapeake Elementary School
- Centerville Middle School

## Domains and Features

## Theory of Action

The SWIFT Center is committed to eliminating the silos in education by bridging general and specialized education to create powerful learning opportunities for students and teachers and promote active, engaged partnerships among families and community members. The SWIFT framework provides academic and behavioral support systems and practices that promote the learning and academic achievement of all students, including students with disabilities and those with the most extensive needs.
